## STARSHIP HIGHLANDS

### CAPTAIN'S LOG

Star Date 1995.5

The Starship Highlands is on a peaceful mission where each of us is determined to boldly go where no one has gone before. We are excited by the infinite diversity of our universe as we continue on our quest seeking and inspiring intelligent life. We are excited, too, by the myriad of possibilities for new knowledge. We welcome the risks that we face during our journey because we know that confronting those risks will allow us to expand our knowledge.

Earlier in this star date we encountered a radical force of P.C. Kleinons. They sought to sever large portions of our ship, and so a serious battle ensued. In the end, while we were wounded, nonetheless, during the peace talks we came to many compromise positions. Once we understood the Kleinons we were even able to learn from them. And so we continued our journey.

We observed many different life forms and participated in a wide variety of cultural and athletic events. Of special note were HOG Days, Adopt-A-Grandparent, drama productions, starship teams, skiing, cheerleading, Open House, and many more. From each of these we learned about other people and developed many different skills. Clearly all of us will be enriched by our journey.

As stardate 1995 reaches a close everyone will face exacting examinations to determine how well we integrated the experiences that we encountered. Some of us will return to Starship Highlands in September while others will make to a senior starship. Those of us remaining offer best wishes to all of our compatriots wherever they may fare.

Captain Robblee

### COMMANDER'S LOG

Scene: The "Starship Enterprise" has picked up signals from an abandoned spacecraft. Crew members have transported over to the ship and have identified it as a spacecraft that originated from the planet Earth in the 20th century. They have managed to gain access to the primitive computer system found on the craft and have started to examine equipment found in the engineering section.

Engineering Officer:

"I have seen computer generated images of some of these control devices. But for the life of me, I cannot remember the significance of the letters R.P. and M."

Data: "Those letters refer to the number of revolutions per minute that parts of the machine revolved at."

Picard:

"It's funny that you mention that definition. When I was young, my father used those three letters to get across a different message. In his explanation the "R" stood for respect. In this case, he meant self-respect. The point of being honest with oneself and doing that which we know is the correct thing to do. The "P" meant to be proud of your accomplishments. A person can be satisfied when they have put their best effort into a task. In sports, an athlete who participates to the level of their ability and still loses in a competition has nothing to be ashamed of. Individuals in school or workforce who perform to the best of their ability can be proud. The "M" stood for maturity. by this he meant accepting responsibility for the choices that they make. They must be willing to accept both the rewards and consequences of their actions."

As I look back over my first year at Highlands, it is obvious that a great many students are watching their RPM's. Students at this school have reason to be proud of their accomplishments in the academic areas, in sports and in the fine arts. They have been fortunate to have had a hard working and dedicated staff that was willing to go the extra distance to help prepare them for their future travels.

Commander Irons

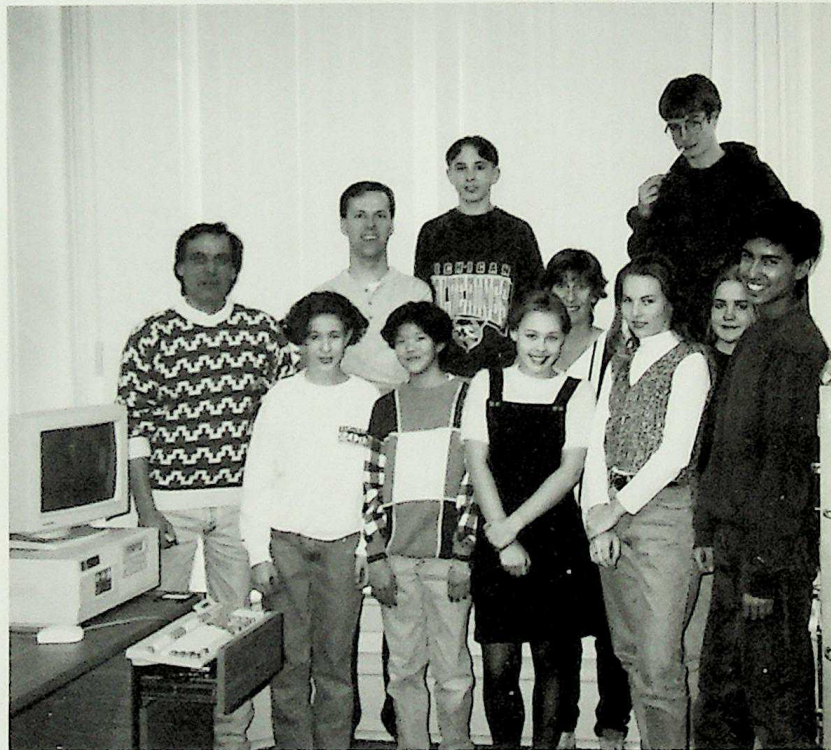

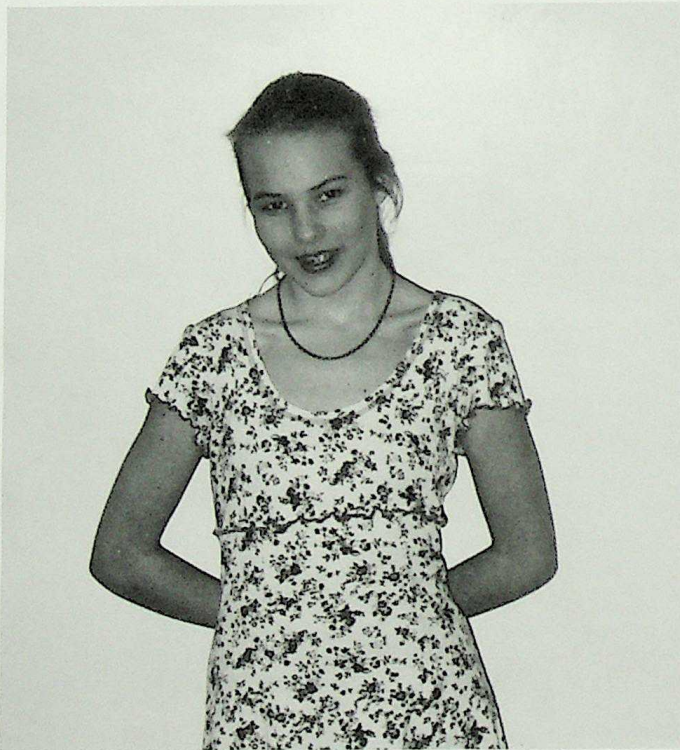

## STUDENT COUNCIL PRESIDENT'S MESSAGE

Well, school's over, no more exams and no more excuses of why you didn't get your homework done. I am sure everyone can agree this was a great year for all! For grade sevens, it is supposed to be a year of embarrassing events and getting to know the system. Like forgetting your combination to your locker, forgetting even where it is, or calling a teacher by the wrong name, or even worse, calling a teacher mom or dad! But this year there was a great "Welcome!" Grade eights could be described as "Lay-back-take-a-load-off, grade seven is over" type of people. Grade nine was an excellent year to remember. Looking back at our grade seven and eight memories, now we feel at the top, but as we go into High School, we feel like we're starting all over again. Drama productions by Mrs. Smith were a very successful opportunity. The students enjoyed doing this which made the event even more exciting. The sports teams showed that they can achieve a lot, achieving to reach their potential, which showed through their endless battles against other schools. Ski club went very well; I'm sure everyone enjoyed the experience to travel and ski. The cheerleading team had their energy in high gear this year, the never-ending will to win their competitions! Gymnastics were very energetic also. Through winning competitions they showed the Highlands spirit! I want to thank all the students who made this year the best for everyone! Good luck to all of you in the future.

Jackie Soroka

### Valedictorian's Address

It's a great honour and a privilege to represent the Grade 9 Class of 1995. I am pleased to say that these past three years at Highlands, have been just fabulous. Unfortunately, the grade nine students are leaving Junior High, to enter a whole new world. Although I am really excited about high school, I am also disappointed to be leaving so soon.

The three years at Highlands have prepared me to experience new challenges, and open new doors. The excellent staff have supported each and every student. Our remarkable teachers have taught us everything we need to know for high school. They have prepared and educated every student equally, and this makes me very grateful.

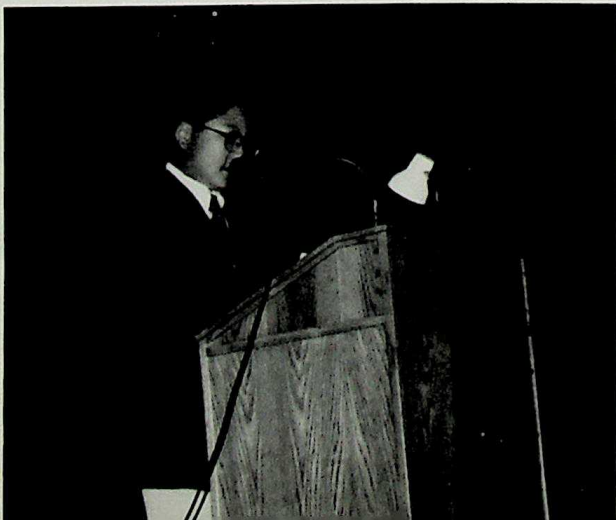

I am proud to say that Highlands is a terrific school. We have willing instructors, excellent sport teams, and most importantly great, enthusiastic students.

Highlands has an exceptional staff. Our staff helped us when we were in trouble, were lenient with us when we were out-of-hand, and taught us to be disciplined students. I will always respect and remember the staff of Highlands.

One of the most exciting things were the fantastic sports and the extra-curricular activities that Highlands provided. These sports were in forms of intramurals, teams, and sports played in physical education. H.O.G. days were always a time for cooperation and school spirit. These activities encouraged the students to work and cooperate as a team. Also, this team work won Highlands many trophies and competitions. These sports were organized marvelously for the students. Lastly, I would like to say that all the students and staff that were involved in any sport team, deserve credit for their efforts.

It was a pleasure being a student attending Highlands, because everybody was welcomed. Everyone respected each other, and there were no major discriminations concerning race. Because everyone was respected, I felt accepted all the time as well.

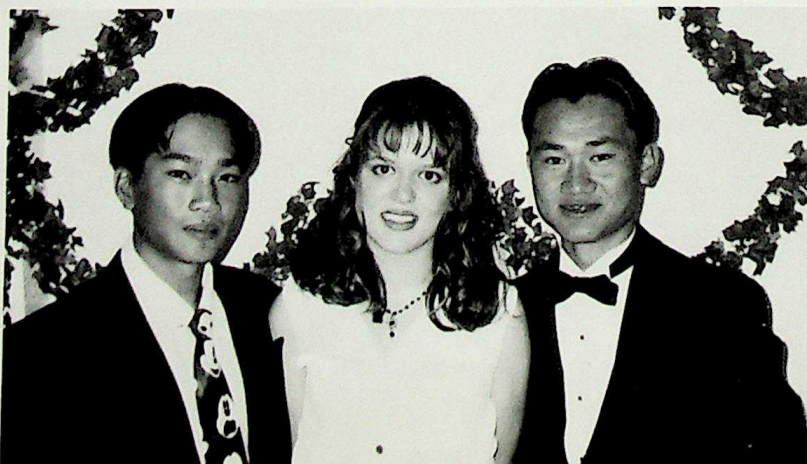

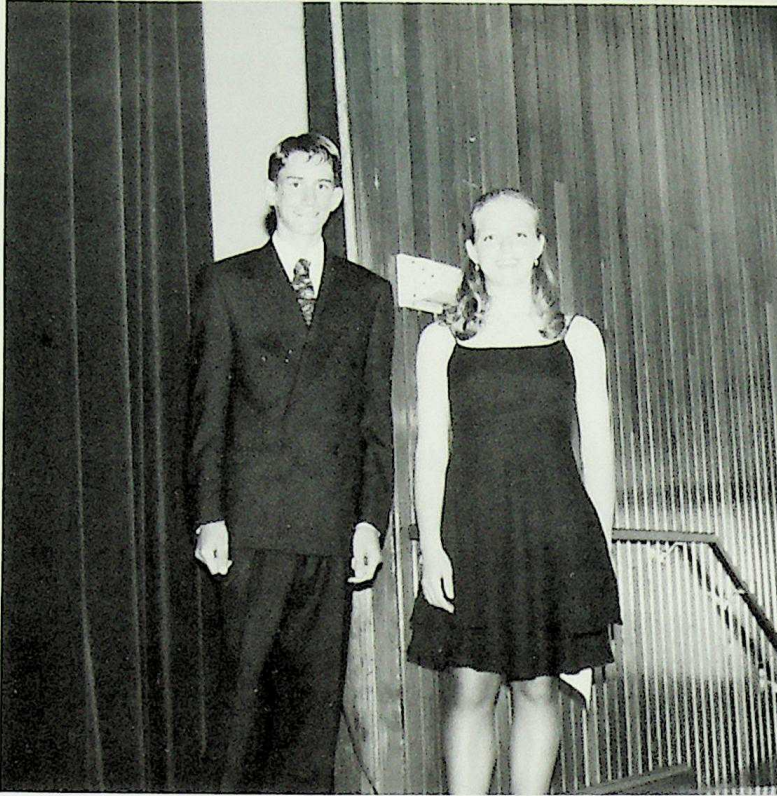

Fellow graduates, we will be going our own ways from this point. Already many of us are separating by going to different high schools. We have our futures to think about. Also, we have our goals that need to be achieved. Nobody can make our future so all we can do is hope, and try to achieve what we hope for. I just hope for the best for everyone and wish everyone good luck. I will say farewell, for now, and I hope that we meet again in the future.

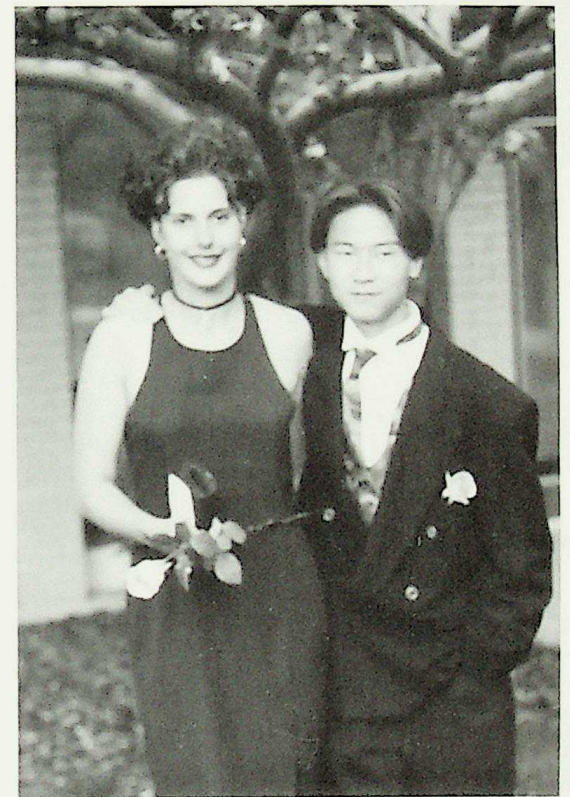

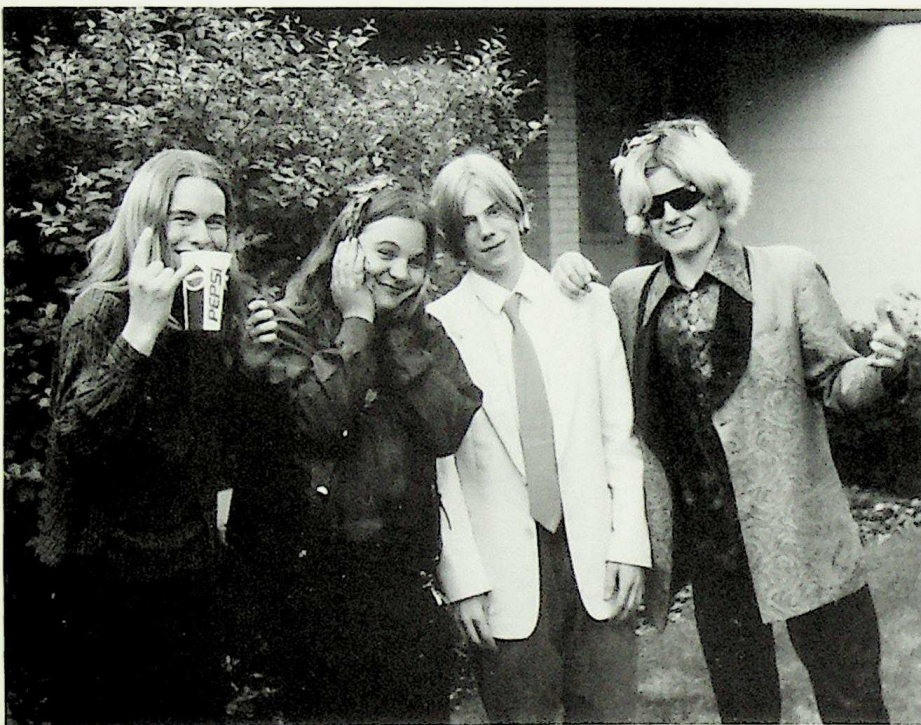

*Justin Chun*
